

# Launching the First IAEA-INSTA-ANENT E-LEARNING PROGRAMME FOR EDUCATORS PHASE 1

Under TC Project RAS0091

8 APRIL – 8 OCTOBER 2024

## Kick-off Virtual Opening Ceremony: 22 April 2024; 09:00 Vienna time

1. Opening by : IAEA, Chair  
INSTA/Head WG2 (30mins)
2. Guidance by OUM (15mins) &  
ANENT (15mins)
3. 30 mins for Q&A

## Course Modules:

- Module 1: Learning Approaches and Strategies for the 21st Century
- Module 2: Global Agenda, Laws and Treaties
- Module 3: Roles of NST in Development

## Objectives of the Course:

1. To develop deeper understanding of the global agenda, legislation and treaties related to nuclear science and technology (NST);
2. To promote growth, research, development and innovation of NST in one own's field;
3. To improve competency in imparting knowledge on NST through effective learning and facilitation;
4. To strengthen collaboration towards improving NST education and optimize nuclear knowledge management collectively; and
5. To inspire new generation of educators on benefits and potential of NST for socio-economic development.

## Host Institutes:

International Nuclear Science and Technology Academy (INSTA) in cooperation with Asian Network for Education and Training in Nuclear Technology (ANENT) and Open University Malaysia
